

CERTIFICATE OF COMPLETION

ROBERT FYDRYCH

graduated **Frontend Developer** course, during which issues related to the creation of websites and web applications were presented, in particular:

HTML (semantics, accessibility), **CSS** (Flexbox, Grid, RWD), BEM, **JavaScript** (ES6+, Promises, async/await), Storage API, Forms, Axios, **React** (Hooks), Styled Components, **Redux**, Redux-Saga, React Router, **Git**, GitHub (Pull Requests & collaboration), **Scrum**, Figma, Trello, teamwork, **Code Review**, working with the task board.

Robert has proved the knowledge of the above issues in the projects submitted after each module as well as in a **4-week team project**, during which a modern web application based on a professional graphic design was created in collaboration with a team of several people.
